

Free to attend

CoderDojo

Are you interested in creating apps for your phone or building your own website to show off your interests? Young people can learn to do all of this for free at CoderDojo! Dojos are fun spaces where children and teens can use their imagination and creativity to learn cool new skills, and make new friends.

We are proud to run a Dojo at this location!

When we run

Every Saturday from
0900 - 1100
(During school term only)

Where we run

Altona North Public Library

What we cover

Scratch, BBC micro:bit, game dev,
robotics, python, web programming,
electronics with arduino, raspberry pi.
